— An Open Minds Production —

# 23rd Annual UFO Congress, Convention & Film Festival

February 12 - February 16, 2014

---

Dear Friends,

We are excited to bring you the 23rd annual International UFO Congress & Film Festival. It is such an honor to keep the tradition going and celebrate the extraordinary commitment of our attendees who share our enthusiasm for the UFO/ET phenomenon.

If you missed it, last year's Congress was a spectacular success. In addition to the incredible speaker presentations, we also continued the very popular panel discussions; thus allowing audience members to hear from experts on specific topics and get their questions answered. Also, during the Saturday evening banquet we recognized two outstanding contributors to the field: Grant Cameron received the Researcher of the Year Award, while researcher Stanton Friedman received the Lifetime Achievement Award.

This year we are excited to continue the incredible lineup of speakers. Additionally, after the overwhelming attendance at the Experiencer Sessions, we have added additional session timeslots in the evenings. We are also looking forward to bringing you a special Valentine's Day mixer on Friday evening.

The conference is conveniently located just outside the Phoenix metropolitan area on the beautiful Yavapai Nation. The Radisson Fort McDowell Resort is adjacent to the Fort McDowell Casino, making for easy access from your hotel room to the conference. The hotel is a short drive from the Phoenix Sky Harbor International Airport, and shuttle options are available for a discounted rate.

Remember you can also share your favorite lectures with your friends and family who are unable to attend. Save time by preordering your lecture DVDs online at [store.openminds.tv](http://store.openminds.tv) or by calling 1-877-836-0110. DVDs will be shipped immediately after the conference so you can stay up-to-date on the latest news in the UFO world.

Don't miss the 23rd International UFO Congress, as we continue the honored tradition and bring you even better events. Sign up before January 15, 2014 and get the entire 5-day event, including access to all speaker presentations, the EBE UFO Film Festival screenings, the Meet the Speakers Cocktail Party, and the EBE Awards Banquet, for \$239.00. We hope to see you there; you don't want to miss it!

Warmest Regards,  
**The International UFO Congress Team**

Tuesday, February 11 • Registration Desk Open: 2:00 – 7:00 PM

Wednesday, February 12 • Registration Desk Open: 7:00 AM – 6:30 PM, Exhibits Open: 8:00 AM – 6:30 PM

- 7:30 – 8:30 AM**     **Experiencer Session:** We will host a small gathering for experiencers to interact. (No press/media allowed)
- 8:30 – 9:00 AM**     **Congress Welcome and Announcements.**
- 9:00 – 10:15 AM**     **Ted Peters - *UFO Abductions: Are They Spiritual?*:** Experiencers of Close Encounters of the 3rd kind, or even abductions, interpret their experiences with political, scientific, and religious implications. Since the 1980s, abduction reports involving abductions leading to the birth of hybrid babies appear, on the surface, like sexual abuse with traumatic consequences. Still, abductees frequently claim their experiences have opened them up to their higher self, a sense of unity with nature, and to new dimensions of reality. Does this new sense of unity with ultimate reality become a substitute for belief in God? Or, is it a supplement and complement?
- 10:30 – 11:45 AM**     **Stephen Bassett - *UFO Disclosure*:** Disclosure (capital “D”) is the formal acknowledgment by world governments of an extraterrestrial (non-human) intelligence engaging the human race. It is the primary goal of a growing truth advocacy movement, and it will be the most profound event in human history. Much will have happened by the time of the 23rd International UFO Congress. Stephen will report on the progress with the United Nations Joint Resolution Initiative, the Congressional Hearing Initiative, the Truth Embargo documentary, and other developments.
- Noon – 1:00 PM**     **Lunch Break**
- 1:00 – 2:15 PM**     **Kim Carlsberg - *My Secret Life: One Woman's Account of Eight Years of Alien Abduction*:** The release of Kim Carlsberg's first book, *Beyond My Wildest Dreams, Diary of a UFO Abductee* nearly two decades ago, was a milestone in contact literature. The intense narrative was derived from diary entries Carlsberg made as she endured a sudden and inexplicable relationship with non-human entities that began after a close encounter in Malibu, California in 1988. The prose was complimented by an evocative set of images from illustrator Darryl Anka. The combination portrayed one woman's journey through terror, confusion and loss, to an understanding of reality radically at odds with the consensus of mainstream society. Now, twenty years later, Kim's life work continues to be an exploration into the depths of the ET/UFO phenomenon.
- 2:30 – 3:45 PM**     **Mike Clelland - *Owls, Synchronicity, and the UFO Abductee*:** Mike Clelland began his study of the UFO abduction phenomenon in 2006 as a way to better understand his own personal experiences. This act of looking unleashed a flood of synchronicities as well as intense owl sightings. These events have been the focus of his ongoing research. Both owls and profound synchronicities seem to play a guiding role in the direct experience of some abductees. This connection points to a deeper reality at play in these mysteries. By looking at these elusive and often ignored aspects of the abduction lore, something truly mystical seems to be revealing itself.
- 4:00 – 5:30 PM**     **Robert Powell - *UFOs & Government: The Historical and Changing Role of Government over Time*:** Governments have been concerned about UFO sighting reports since WWII, but historians have never made a concerted attempt to understand their often contradictory responses to the phenomenon. How could something of such potential technological and national security consequence have left no visible trace in the history books? Whether it's a conspiracy or not, the subject has been marginalized to such an extent that it's as if the military never acted with alarm on the heels of a UFO sighting, as if the intelligence community never took up the issue behind closed doors, as if government research and development efforts never attempted to duplicate the phenomenon. But they have. Robert Powell will discuss how governments, especially in the U.S., have dealt with the UFO phenomenon and will provide a hypothesis as to why the phenomenon took its roots during WWII.
- 7:30 – 10:30 PM**     **“Meet the Speakers” Cocktail Party.** An evening of great Southwestern food, cash bar, door prizes, and more.

Thursday, February 13 • Registration Desk and Exhibits Open: 8:00 AM – 7:00 PM

- 8:00 – 9:00 AM**     **Experiencer Session:** We will host a small gathering for experiencers to interact. (No press/media allowed)
- 9:00 – 10:15 AM**     **Kewaunee Lapsertis - *Interdimensionalism: The Secret to the Bigfoot/UFO Connection*:** Kewaunee will be speaking about his in-depth encounters and how both ETs and the Sasquatch people have helped him numerous times with health issues, connecting with other contactees, and even saved his life more than once. Also, he will discuss what these sentient beings are telling people about themselves and the planet. Plus, why monster hunters are never successful in catching a Sasquatch or obtaining an undisputed photograph of one. Also, the focus will be on “portals” that are used by both ETs and the hairy-folks.
- 10:30 – 11:45 AM**     **Don Schmitt - *Inside the Real Area 51: The Secret History of Wright Patterson*:** The true nature of what actually crashed in Roswell, New Mexico, in 1947 remains classified. Only a select few have ever had access to the truth about what became known as Area 51. But what happened to the remnants of that crash is shrouded in even greater mystery. What began in the high desert of New Mexico ended at Wright-Patterson, an ultra top-secret Air Force base in Dayton, Ohio. The physical evidence of extraterrestrial visitation was buried deep within this nuclear stronghold. How tragic that such seismic news should be kept from the people of the world—pieces of history, now quickly dwindling into oblivion as the last of the secret-keepers passes on. In spite of its rich and historic military service to our nation, Wright-Patterson also stands as the secret tomb of one of the greatest occurrences in recorded history. But be prepared, the real Area 51—Wright Patterson's vault—is about to be opened.

Thursday, February 13 • continued on next page

- Noon – 1:00 PM**      **Lunch Break**
- 1:00 – 2:15 PM**      **Dr. Ardy Sixkiller Clarke - *Encounters with Star People: An Indigenous Perspective*:** This presentation will focus on the author's book, *Encounters with Star People: Untold Stories of American Indians* and provide insight into the long-established relationship among American Indians and the Star People through traditional legends. Her presentation will include more details about many of the stories revealed in the book as well as stories told by individuals not included in the book. In addition, Dr. Clarke will share information about her work-in-progress among the indigenous people in Central America and Mexico. The presentation will be followed by an opportunity for questions from the audience.
- 2:30 – 3:45 PM**      **Richard Hoover - *Is Life Restricted to Planet Earth—Or is Life More Widely Distributed Throughout the Universe?*:** This is the fundamental question of Astrobiology. Valid evidence for living or fossil organisms elsewhere in the solar system would establish existence of extraterrestrial life and provide a positive answer to this profoundly important question. This presentation will describe evidence for present day water, complex organic molecules, fossilized and living organisms detected on the Red Planet obtained by ESA Missions and the *NASA Viking, Phoenix, Spirit, Opportunity* and *Curiosity* Orbiters, Landers and Rovers. Astonishing images of a complex form with detailed morphological characteristics of known species of a fossil crinoid what found on Mars in 2004 by the *NASA Opportunity* Rover will be presented and discussed. Samples of both the Polonnaruwa and Chelyabinsk meteorite stones will be on hand for the audience to examine.
- 4:00 – 5:30 PM:**      **PANEL: *Is There a Government Cover-Up?*** Featuring Stephen Bassett, Timothy Good, Robert Powell, and Colonel John Alexander.
- 7:00 – 8:00 PM:**      **Experiencer Session:** We will host a small gathering for experiencers to interact. (No press/media allowed)
- 7:00 – 10:00 PM:**      **Film Festival Screenings.** Free of charge, no prior registration is required to attend.

## Friday, February 14 • Registration Desk and Exhibits Open: 8:00 AM – 7:00 PM

- 8:00 – 9:00 AM**      **Experiencer Session:** We will host a small gathering for experiencers to interact. (No press/media allowed)
- 9:00 – 10:15 AM**      **Robert Schroeder – *How Modern Physics is Revealing the Technology of UFOs*:** Robert Schroeder is the author of the book *Solving the UFO Enigma: How Modern Physics is Revealing the Technology of UFOs*. The book and talk focus on the evolution of modern physics and how recent theories are pointing toward a likely explanation of UFO physics. In a nutshell it was once thought that the idea of extra dimensions was strictly the domain of science fiction. That has all changed in the last several decades as physicists appear to be closing in on a final “theory of everything” that suggests we may live in an eleven dimensional universe. These cutting edge theories are now being tested at the Large Hadron Collider particle accelerator in Geneva, Switzerland. Spectrographic data from actual UFO sightings would confirm if these craft are using technology we are now on the cusp of unraveling.
- 10:30 – 11:45 AM**      **Patty Greer - *Crop Circles & The Real Circlemakers*:** Delve into the crop circle phenomenon with a film maker who has visited more than 100 crop circles personally. After having an out-of-body-experience in the center of an English crop circle in 2007, Patty Greer produced five full feature UFO documentaries. With no previous training or experience in film making whatsoever, she zoned in on the UK crop circles and the “balls of light” seen in and around them. Greer takes the study into a new realm of possibilities, sharing daunting footage and clips from her documentaries as potential evidence that (ET) balls of light may be involved in the creation of (many) crop circles!
- Noon – 1:00 PM**      **Lunch Break**
- 1:00 – 2:15 P**      **Jeffrey Bennett - *Beyond UFOs: The Scientific Search for Extraterrestrial Life and its Astonishing Implications for Our Future*:** Is there really life beyond Earth? Astrophysicist and author Jeffrey Bennett will talk about why this question has become a hot topic of scientific research, and discuss how scientists are searching both for microbial life and extraterrestrial intelligence. Along the way, we'll also see why the possibility of life beyond Earth has profound implications for the future of our species, even in the unlikely event that we are alone in the universe. This talk is based on Dr. Bennett's award-winning book *Beyond UFOs*.
- 2:30 – 3:45 PM**      **Aaron Sagers – *Celebrity UFO Encounters*:** Aaron Sagers is a TV personality, journalist and entertainment pundit who has covered everything from zombies, ghosts, and aliens, to geek culture for CNN, MTV, and on his Travel Channel show *Paranormal Paparazzi*, where he serves as host and co-Executive Producer. He has traveled the country talking about pop culture at numerous fan conventions such as San Diego Comic-Con, New York Comic-Con, Wizard World, Dragon Con, and more. Sagers is also the founder of *Paranormal Pop Culture*, an entertainment news site that explores horror, supernatural and all elements of the paranormal. He has appeared as an expert on the BBC, Huffington Post Live, CNN, Sirius/XM, Playboy, and Coast to Coast. Sagers is the author of *Paranormal Pop Culture: Rambling and Shambling Through the Entertainment of the Unexplained*, and is a part-time professor of Journalism at NYU in New York City, where he resides.
- 4:00 – 5:30 PM**      **PANEL: *Science and the Search for Extraterrestrial Life*.** Featuring Richard Hoover, Jeffrey Bennett, and Ted Peters.
- 5:30 – 7:00 PM**      **Valentine's Day Cocktail Hour.** Enjoy getting to know other UFO attendees at this special cocktail hour. Cash bar.
- 7:00 – 8:00 PM**      **Experiencer Session:** We will host a small gathering for experiencers to interact. (No press/media allowed)
- 7:00 – 10:00 PM**      **Film Festival Screenings.** Free of charge, no prior registration is required to attend.

## Saturday, February 15 • Registration Desk and Exhibits Open: 8:00 AM – 6:30 PM

- 8:00 – 9:00 AM** **Experiencer Session:** We will host a small gathering for experiencers to interact. (No press/media allowed)
- 9:00 – 10:15 AM** **Dr. Bruce Maccabee** - Bruce Maccabee received a Ph.D. in physics from the American University in Washington, DC and subsequently began a 36-year career at the Naval Surface Warfare Center, where he worked on anti-submarine warfare, space-based laser weapons, and chemical and biological warfare, as well as other projects. He began investigating UFO phenomena in the late 1960s and has published a series of papers about individual cases. He is best known for his analyses of the 1950 McMinnville photo case, the 1978 New Zealand sightings, the 1986 Japan Airlines sighting, and the Gulf Breeze sightings (1987–97). He was the first to obtain and publish the FBI file on UFOs (the “real X files”) and has published three books, *UFOs Are Real: Here's The Proof*, *The UFO-FBI Connection*, and *Abduction In My Life*, the latter being a unique combination of fiction and fact.
- 10:30 – 11:45 AM** **Jaime Maussan - Exploring the Latest UFO Happenings from around the World:** A well-established and widely known TV personality in Mexico, Jaime Maussan has become world famous for the incredible quantity and spectacular quality of the UFO videos that he continuously presents to the global UFO community. The modern Mexican UFO wave, along with Jaime's involvement in this field, began in July 1991 during a total solar eclipse, when thousands of Mexican citizens reported and filmed UFOs. This was the event that made the UFO phenomenon a reality to Jaime. Through his *Tercer Milenio* TV program, Jaime continues to report on UFOs on a regular basis and is one of the hardest-working investigators and reporters in the field.
- Noon – 1:00 PM** **Lunch Break**
- 1:00 – 2:15 PM** **George Knapp – Area 51's Whistleblower: Twenty-Five Years Later:** George Knapp is an Emmy-Award winning journalist famous for reporting on Nevada's infamous Area 51 military base. He is an anchor and reporter for the CBS affiliate KLAS-TV in Las Vegas and also frequent host of *Coast to Coast AM*. In his presentation Knapp will discuss the mystery surrounding Area 51 and provide never before heard details from Bob Lazar, the man who claimed to have worked on extraterrestrial spacecraft at Area 51.
- 2:30 – 3:45 PM** **Timothy Good - EARTH: An Alien Enterprise:** Timothy Good became interested in UFOs in 1955, having been inspired by the works of Maj. Donald Keyhoe and Capt. Edward Ruppelt. Now a leading authority, he has researched the subject worldwide and his numerous contacts include astronauts, military and intelligence chiefs, pilots and politicians. He has written a dozen books on UFOs and the alien presence, including *Above Top Secret*, *Alien Liaison*, *Alien Base*, *Unearthly Disclosure* and *Need to Know*. Four of his books have forewords by Admiral of the Fleet Lord Hill-Norton, a former chairman of the NATO Military Committee and Chief of the Defence Staff. Good's latest book, *EARTH: An Alien Enterprise*, was recently published in November 2013.
- 4:00 – 5:30 PM** **George Noory - An Evening with George Noory: Special Q & A Session:** George Noory is the host of the nationally syndicated program *Coast to Coast AM* that airs on over 500 stations in the U.S., Canada, Mexico, and Guam. He became the permanent host of the phenomenally successful over-night program on January 1, 2003, following Art Bell's retirement. Since then, Noory's audience has continued to grow. Noory captivates program listeners with his discussions of paranormal phenomena, time travel, alien abductions, conspiracies, and all things curious and unexplained. He is driven, he has said, by the desire to solve the great mysteries of our time. From his first days as a radio broadcaster he says, “I've wanted to cover stories that the mainstream media never touch—the unusual, the paranormal and things like that. I learned that broadcast was the best business for exploring these issues, and I've been doing it for 33 years.”
- 6:30 – 7:30 PM** **Cocktail Hour (Cash Bar)**
- 7:30 – Closing** **Banquet & Film Festival Awards Ceremony:** An evening of great Italian food, wine, and good fun with good people hosted by George Noory. Ticket required.

## Sunday, February 16 • Registration Desk and Exhibits Open: 9:00 AM – 4:00 PM

- 9:00 – 10:00 AM** **Experiencer Session:** We will host a small gathering for experiencers to interact. (No press/media allowed)
- 10:00 – 11:15 AM** **Glenn Steckling – UFOs, ET Visitations & Adamski Revisited:** Glenn Steckling, the Director of the George Adamski Foundation, will join us to discuss George Adamski, moon anomalies, and his concerns regarding varying agendas participating in the revisionism of UFO history. Mr. Steckling's father, the late Fred Steckling, was a close friend and associate of George Adamski, considered by many to be the pioneer in the early contactee UFO field. Steckling will reveal discoveries he's made about the myths and realities surrounding UFO visitations; including remastered original Adamski motion picture footage, and newly released rare home movie Adamski footage. He will also share a number of first-generation copies of NASA photographs of the Moon, along with movie footage of an array of UFOs taken by his father in 1966, while he was traveling through Germany by train.
- 11:30 – 12:45 PM** **David Marler - Triangular UFOs: An Estimate of the Situation:** For years, serious researchers have known that triangular-shaped UFOs are increasingly one of the most common types observed. The phenomenon has sparked intense debate among many and excited the imagination of many others. But until now, there has never been a comprehensive analysis of triangular UFOs. Marler has collected, collated, and analyzed hundreds of reports over the last thirteen years. In the process, he has created a detailed profile of these objects and written a rich narrative of their history. He tackles the arguments made by skeptics that dismiss these triangular UFO reports outright. He also addresses the claims of so-called insiders who claim these objects are a creation of the U.S. military.
- 1:00 – 2:30 PM** **PANEL: Abductions and Alien Contact.** Featuring Kim Carlsberg, Mike Clelland, and Kewaunee Lapsertitis.
- 2:30** **Conference Closing Remarks**
