

24th Annual UFO Congress, Convention & Film Festival

February 18 - February 22, 2015

Dear Friends,

We are excited to bring you the 24th annual International UFO Congress & Film Festival. We are delighted to keep the tradition going and celebrate the extraordinary commitment of our attendees who share our enthusiasm for the UFO/ET phenomenon.

If you missed it, last year's Congress was an event to remember. In addition to the incredible speaker presentations, we also covered a diverse range of topics in the very popular panel discussions. Also, during the Saturday evening banquet we recognized two outstanding contributors to the field: Steve Bassett received the Researcher of the Year Award, while researcher Dr. Bruce Maccabee received the Lifetime Achievement Award.

This year we are excited to continue the incredible lineup of speakers. Additionally, we will have the extremely popular Experiencer Sessions in both the mornings and select evenings throughout the event. We're also happy to announce that we will once again have Ben Hansen, from Syfy's *Fact or Faked: Paranormal Files* leading a night vision sky watch with gear from his company Night Vision Ops on Friday evening.

The conference is conveniently located just outside the Phoenix metropolitan area on the beautiful Yavapai Nation. The We-Ko-Pa Resort (formally the Radisson Fort McDowell) is adjacent to the Fort McDowell Casino, making for easy access from your hotel room to the conference. The hotel is a short drive from the Phoenix Sky Harbor International Airport, and shuttle options are available for a discounted rate.

Remember you can also share your favorite lectures with your friends and family who are unable to attend. Save time by preordering your lecture DVDs online at store.openminds.tv or by calling 1-877-836-0110. DVDs will be shipped immediately after the conference so you can stay up-to-date on the latest news in the UFO world.

Don't miss the 24th International UFO Congress, as we continue the honored tradition and bring you even better events. Sign up before January 21, 2015 and get the entire 5-day event, including access to all speaker presentations, the EBE UFO Film Festival screenings, the night vision sky watch, the Meet the Speakers Cocktail Party, and the EBE Awards Banquet, for \$239.00. We hope to see you there; you don't want to miss it!

Warmest Regards,
The International UFO Congress Team

Wednesday, February 18 • Registration Desk Open: 7:00 AM – 6:30 PM, Exhibits Open: 8:00 AM – 6:30 PM

- 7:30 – 8:30 AM** **Experiencer Session:** We will host a small gathering for experiencers to interact. (No press/media allowed)
- 8:30 – 9:00 AM** **Congress Welcome and Announcements.**
- 9:00 – 10:15 AM** **Clifford Mahooty – *The Zuni Pueblo Indian People and the UFO Connection:*** Clifford Mahooty will present his Zuni Tribal teachings including oral history, religion, rituals, kachinas, and spiritual practices and how they relate to UFOs, star people, and spiritual beings. Mahooty will compare ancient oral teachings to modern scientific theories, discoveries, and cosmic concepts based on his research and analysis, to Zuni sacred knowledge still in practice today.
- 10:30 – 11:45 AM** **Thomas Reed –** Thomas Reed and his brother began experiencing strange events in the 1960s, beginning with a UFO encounter. Some of their encounters were witnessed by others and investigated by UFO researcher J. Allen Hynek, who was an astronomer and consultant for the air force on the subject of UFOs. The Reed brothers' encounters include memories of being taken by strange creatures and examined. They describe ant people and strange looking humanoids. Although Reed still does not know what really may have happened, he believes at least some of his encounters had something to do with extraterrestrials. In his presentation Thomas will talk about his encounters and the physical evidence found by investigators.:
- Noon – 1:00 PM** **Lunch Break**
- 1:00 – 2:15 PM** **Cheryl Costa – *200 Years of UFOs over New York:*** Imagine that you are a Dutch colonist farming the lands east of Albany, New York in 1790. It is dusk and you are playing your fiddle for amusement when suddenly there is a great roar from the sky accompanied by a blinding brightness. Afterwards there is a stench of sulfur and a huge serpentine-shaped object hovering above the pasture; floating and traveling effortlessly above all obstacles. This just one of the many encounters that playwright and UFO columnist Cheryl Costa has uncovered during her research to support her weekly news column, *New York Skies*. In her presentation, she shares with a theatrical story telling style, amazing stories of the close encounters of ordinary New York State residents spanning two centuries.
- 2:30 – 3:45 PM** **Joan Bird – *Lifting the Lid in Montana and Beyond:*** Given the extraordinary body of both physical evidence and credible witness testimony indicating the earth is being visited by extraterrestrials, how is it that so many people are still unaware of this evidence or unable to believe it? What can we in the UFO community do to reach a larger audience, bringing us to that “tipping point” when this reality finally achieves mass consciousness? Drawing on an extensive background in psychology, as well as a Ph.D. in zoology, Dr. Bird will talk about her efforts toward this end, some of the unconscious obstacles we face, and the intentional “meta-messages” in her book, *Montana UFOs and Extraterrestrials*.
- 4:00 – 5:30 PM** **James Clarkson – *Finding June Crain:*** In 1993, while giving a presentation at the Ocean Shores, WA, library, UFO Investigator James E. Clarkson met June Crain, a woman who claimed to know that what he said was true—UFOs are real and the government knows all about it. When asked how she knew, she replied, “Because I worked there.” Crain worked at Wright Patterson Air Force Base from 1943-1953, a pivotal period in the formulation of the official policy of UFO denial and cover up. She was a secretary with a Q-level clearance in a top secret government laboratory. By the time she left, June had heard of at least three UFO crash retrievals and had handled a piece of the “memory metal.” In his presentation, Clarkson will tell June’s amazing story. He will describe the details of her revelations about what happened after Roswell. He will demonstrate how her statements parallel the early history of the U.S. Space Program.
- 7:30 – 10:30 PM** **“Meet the Speakers” Cocktail Party.** An evening of great Southwestern food, cash bar, door prizes, and more. Ticket Required.

Thursday, February 19 • Registration Desk and Exhibits Open: 8:00 AM – 7:00 PM

- 8:00 – 9:00 AM** **Experiencer Session:** We will host a small gathering for experiencers to interact. (No press/media allowed)
- 9:00 – 10:15 AM** **Linda Zimmerman – *Hudson Valley UFOs:*** For over 100 years, residents of New York’s Hudson Valley have been experiencing startling UFO encounters and sightings. From the “mysterious airships” of the early 1900s, to “missing time” cases since the 1920s, to the wave of massive triangles in the 1980s, to fascinating present-day cases, author Linda Zimmermann’s research points to the possibility that this region may be the most active in the country. Zimmermann will present the best evidence from interviews conducted with hundreds of eyewitnesses, including multi-generational abduction cases, and accounts from law-enforcement and military personnel who know they have encountered things that defy conventional explanations.
- 10:30 – 11:45 AM** **Derrel Sims – *Profiling the Alien: His History and Our Evidence Tells the Story:*** In this dynamic lecture, Sims shares his multi-modality approach to tracking the alien predator, from his investigative focus on physical evidence to transformative therapeutic intervention on behalf of alien experiencers. As the original expert on alien implants, fluorescence, procaine allergies, and other abduction characteristics, Derrel will report on the latest developments with these phenomena, as well as what other discoveries his research is uncovering. He’ll also update you on his most provocative ongoing cases, which include recent examples that support his 1992 discovery of alien fluorescence (a kind of indelible alien “fingerprint”), anomalous handprints, medical complications following alien contact, possible alien implants in situ and alleged alien biological residue. With his current focus on alien DNA, his predictions of what we might find once the genetic testing is completed and the results are in. Finally, Derrel explores the alien’s own cover-up throughout history. What does the past and mythology reveal about the alien presence?

24th ANNUAL • 2015 UFO CONGRESS CONVENTION & FILM FESTIVAL

SCHEDULE OF EVENTS
February 19 - 20

Noon – 1:00 PM **Lunch Break**

1:00 – 2:15 PM **Christopher O'Brien – *Stalking the Herd: Unraveling the Cattle Mutilation Mystery*:** Since 1605, tens of thousands of cattle and other warm-blooded animals have been documented as being mutilated in pastures and on farms around the world. These animals are discovered in a horrific condition, missing various soft-tissue organs, and no clues are present at the crime-scene to aid investigators. Who or what is behind these unexplained animal deaths? Christopher O'Brien, takes you inside one of the most perplexing serial crime sprees of all time. Working with veterinarian pathologists, biologists and law enforcement investigators, O'Brien has slowly unraveled this enduring mystery, and, as you will see, no single answer can explain all of these horrific deaths. He exposes startling new evidence linking many of these animal deaths to a covert environmental monitoring process perpetrated by a shadowy group with access to high technology. He also looks at the important role of cattle in human cultural and religious development. And, he suggests that the environmental and health impacts of modern cattle raising could be catastrophic to the health and well being of humanity.

2:30 – 3:45 PM **Charlie Foltz and Jim Weiner – *The Allagash Abduction*:** Twin brothers Jim and Jack Weiner and their friends Chuck Rak and Charlie Foltz were on a ten-day canoe camping trip along the shores of the Chamberlain Lake and the Allagash River when a strange incident occurred. During a night fishing trip in a desolate area they spotted a bright glowing sphere in the sky. They claim their canoe was chased down by a beam of light and the next thing they remember, they were standing on the shore, staring as the object rose and disappeared. Feeling unusually drained, the men went to bed early instead of discussing what had occurred. It wasn't until Jim began having terrifying nightmares of extraterrestrial-like beings that he decided to look for help. With the assistance of UFO researcher and author Raymond Fowler, each of the four men underwent a series of hypnosis sessions, lie-detector tests, and a heavy dose of scrutiny. Although regressed separately, the details of their memories were amazingly similar and indicated that the four men were the subjects of an extraterrestrial experiment. The case remains unsolved to this day.

In 2000, Dolan published *UFOs and the National Security State: An Unclassified History, Volume 1: 1941-1973*, a book that Apollo 14 astronaut Dr. Edgar Mitchell called, “a thorough and monumental undertaking.” Dolan followed up in 2009 with a second installment titled, *UFOs and the National Security State: The Cover-Up Exposed, 1973-1991*. In 2010, Dolan co-authored the book *A.D. After Disclosure: The People’s Guide to Life After Contact* with Hollywood producer and screenwriter Bryce Zabel. In addition to his works as an author, Dolan often speaks as an expert on the subject of UFOs.
- 10:30 – 11:45 AM** **Jaime Maussan:** A well-established and widely known TV personality in Mexico, Jaime Maussan has become world famous for the incredible quantity and spectacular quality of the UFO videos that he continuously presents to the global UFO community. The modern Mexican UFO wave, along with Jaime’s involvement in this field, began in July 1991 during a total solar eclipse, when thousands of Mexican citizens reported and filmed UFOs. This was the event that made the UFO phenomenon a reality to Jaime. Through his *Tercer Milenio* TV program, Jaime continues to report on UFOs on a regular basis and is one of the hardest-working investigators and reporters in the field.
- Noon – 1:00 PM** **Lunch Break**
- 1:00 – 2:15 PM** **Jeremy Corbell – *The Invisible College*:** As an investigative filmmaker with unique and unprecedented access to military and private techno industry, Corbell has been pointing the unflinching eye of his camera at the UFO mystery and the extra-ordinary individuals who devote their resources to its investigation. Corbell’s research has taken him into the life of the enigmatic “Godfather of Conspiracy” John Lear, and under the microscope for the surgical removal of alleged Off-World Alien Implants. With access to the NASA laboratories at Moffett Federal Airfield in California’s Silicon Valley, Corbell has filmed the analysis of anomalous materials alleged to be physical evidence of extraterrestrial nano-technology from UFO landing sites and Alien abduction cases. In this multi-media presentation, Corbell will seek to weaponize your curiosity and provide a blueprint for dismantling the Immaculate Deception imposed by the irrational mind and blind faith of the resolved believer, and the skeptic alike. You will experience never before screened footage from a number of Corbell’s upcoming films, and explore the shadowy and mysterious hallways that compose what Jacques Vallee called, *The Invisible College*.
- 2:30 – 3:45 PM** **George Knapp – *Area 51’s Whistleblower*:** George Knapp is an Emmy-Award winning journalist famous for reporting on Nevada’s infamous Area 51 military base. He is an anchor and reporter for the CBS affiliate KLAS-TV in Las Vegas and also frequent host of *Coast to Coast AM*. In his presentation Knapp will discuss the mystery surrounding Area 51 and provide never before heard details from Bob Lazar, the man who claimed to have worked on extraterrestrial spacecraft at Area 51.
- 4:00 – 5:30 PM** **Bob Lazar – *A Special Q & A with Bob Lazar*:** Bob Lazar will participate in a question and answer session with George Knapp. Lazar claimed to have worked in 1988 and 1989 as a physicist in S4 allegedly located at Papoose Lake southwest of top secret Area 51 near Groom Dry Lake, Nevada. According to Lazar, S4 serves as a hidden military location for the study and research of extraterrestrial spacecraft, or flying saucers using reverse engineering. Lazar claims he saw nine different extraterrestrial vehicles there and has provided detailed information on the mode of propulsion and other technical details of a disc-shaped vehicle he called the sport model. Attendees will have the opportunity to submit questions to Lazar.
- 6:30 – 7:30 PM** **Cocktail Hour** (Cash Bar)
- 7:30 – Closing** **Banquet & Film Festival Awards Ceremony:** An evening of great Italian food, wine, and good fun with good people. Ticket required.

- 10:00 – 11:15 AM** **Frank Kimbler – *Xenoarchaeology: The Science of Hunting Alien Artifacts*:** Xenoarchaeology is defined as “a hypothetical form of archaeology that exists mainly in the works of science fiction. The field is concerned with the study of material remains of extraterrestrials. Xenoarchaeology is not currently practiced by mainstream archaeologists supposedly due to the lack of any material for the discipline to study.” There are lots of unidentified, possible, alien artifacts to study but the scientific community and universities scoff at the notion of doing research on almost anything related to the idea of UFOs and extraterrestrials. Most of the research today is done by individuals with varied backgrounds, education and scientific knowledge. Many of these people lack the skills and resources required to prove what they may have found. Some are promoters, some are fanatics, for lack of a better word, and some have a true desire to prove the existence of extraterrestrials and their visits to earth. This presentation will focus on current and past research related to the discovery of possible extraterrestrial artifacts, the facts, the fakes, and the dreams.
- 11:30 – 12:45 PM** **John Burroughs & Pat Frascogna:** As a primary witness to the famous Rendelsham Forest incident, Burroughs will discuss the UFO sightings in England in late December 1980, and his efforts to declassify documents related to the events. Along with his lawyer, Frascogna, Burroughs will also discuss his fight to get his military records from that period of time, which he and Frascogna believe the military is attempting to keep secret.
- 1:00 – 2:30 PM** **PANEL: UFO Secrets Leaked – Whistleblowers Tell All.** Featuring Mark Pilkington, Jeremy Corbell, Ruben Uriarte, and special guest Stanton Friedman.
- 2:30 PM** **Conference Closing Remarks**
