INTERNATIONAL  
CONGRESS

Dear Friends,

**We are excited to be hosting the 21st annual International UFO Congress & Film Festival.** The Congress is celebrating its second year at the beautiful new location outside of Scottsdale, Arizona. What a joy it will be to gather again and celebrate what ufologists and UFO enthusiasts wait for all year: the largest and most popular UFO conference in the world! So many attendees continue to come to the event year after year, which reflects an extraordinary commitment, and we are truly honored to have so many people attend who share our enthusiasm for the phenomenon. As such, we hope to continually improve and keep the tradition of the Congress alive for years to come.

**If you missed last year's event, it was an incredible time had by all.** There were rave reviews about the new venue and the peaceful surroundings, and professionalism of the resort. There were lots of fun events and incredible speaker presentations. Two new awards were added as a way of recognizing outstanding contributors to the field: Journalist Leslie Kean received the Researcher of the Year Award, while the late Lt. Col. Wendelle Stevens received the Lifetime Achievement Award.

**The 2012 Congress is guaranteed to be one for the books and something you don't want to miss!** After receiving hundreds of requests from our attendees, we are happy to announce that the Congress will now include panel discussions featuring speakers who are true experts in their respective areas. In addition, for those of you wanting to see the winning films from the Film Festival, there will be a special showing on Sunday morning. And, as always, we have a stellar line up of speakers who are the most influential and knowledgeable in the world on the subjects of UFOs and extraterrestrials.

**The conference is conveniently located just outside the Phoenix metropolitan area on the beautiful Yavapai Nation.** The Radisson Fort McDowell Resort is adjacent to the Fort McDowell Casino. The hotel is a short drive from the Phoenix Sky Harbor International Airport, and shuttle options are available for a discounted rate.

**Don't miss the 21st International UFO Congress, as we continue the honored tradition and bring you even better events.** Sign up before January 27, 2012 and get the entire 5-day event, including access to all speaker presentations, the EBE UFO Film Festival screenings, the Meet the Speakers Cocktail Party, and the EBE Awards Banquet, for \$265.00. We hope to see you there; you don't want to miss it!

Warmest Regards,  
**The International UFO Congress Team**

Chuck will talk about cattle mutilations, focusing on his previous investigations involving not only cows but horses too. Discussing his own investigative techniques, drawn from his background in law enforcement, he'll cover what types of incidents he determines to be actual mutilations, then speak about the up-to-date evidence he has acquired. He'll also cover the ramifications of being a field investigator which recently put him in the national news. As a bonus, Chuck will release information on new discoveries that you certainly won't want to miss.

10:30 – Noon **Clifford Cliff - *First Time Revealed UFO Files from MUFON's Archives*** - Clifford Cliff is the International Director for the Mutual UFO Network (MUFON). MUFON's archives are a treasure trove of UFO cases the public hasn't heard of—until now. Cliff will be presenting information about the work of MUFON, which will include MUFON's best UFO cases from their archives.

Noon – 1:00 PM **Lunch Break**

1:00 – 2:15 PM **Yvonne Smith – *Recollections of Alien Abduction Through Hypnotherapy - Solo, Duo, and Multiple Abductions*** - Certified hypnotherapist, author, and lecturer, Yvonne has helped many victims of post traumatic stress work through their anxiety. She notes that many subjects, during their regressive hypnotherapy sessions, describe alien abduction trauma. In this presentation, Yvonne will be discussing her case studies on single abductions, cases of double abductions as cited in her first book, *Chosen-Recollections of UFO Abductions Through Hypnotherapy*, and cases involving mass abductions, of which she is currently writing about in her new book on the Coronado Island incident.

2:30 – 3:45 PM **Antonio Huneeus - *The Best UFO Cases: From Ancient Times to 2012*** - Drawing on a vast experience as an international ufologist for over 30 years, Antonio's presentation gives you a tour of the most intriguing UFO cases from different eras throughout history. It includes aerial wonders in ancient China and India, the Mexican wave of the early 1500s, World War II "foo fighters," the American flying saucer wave of 1952, the European wave of 1954, as well as remarkable incidents from Latin America, Russia, the Middle East, and elsewhere up to 2012. Is there a pattern to the appearance of UFOs throughout history? And, is society moving closer to accepting the existence of alien intelligences?

4:00 – 5:30 PM **Lee Speigel - *UFOs: The Media Credibility Factor -- Who Do You Believe?*** - Ever since the 1947 *Roswell Daily Record* changed its story from how the military had captured a "flying saucer" to a "weather balloon," mainstream media has come up short in its coverage of the UFO phenomenon. From weather inversions, swamp gas, kites, Chinese lanterns, and many other explanations for UFOs, this presentation will look at some of the more infamous cases in which the media just didn't get it right and also offer reasons why and how to do it better in the future. Lee Speigel is a writer and reporter for the AOL / Huffington Post Media Group and a former writer and host of nearly 1,500 programs about UFOs and unexplained phenomena, spanning eight years on NBC Radio.

7:30 – 10:30 PM **"Meet the Speakers" Cocktail Party**

**Thursday, February 23 • Registration Desk Open: 8:00 AM – 6:00 PM, Exhibits Open: 8:00 AM – 8:00 PM**

8:00 – 9:00 AM **Experiencer Session:** Yvonne Smith will host a small gathering for experiencers to interact. (No press/media allowed)

9:00 – 10:15 AM **Peter Robbins - *Budd Hopkins: A Personal Appreciation*** - Peter Robbins first met fellow painter Budd Hopkins in 1976, five years prior to the publication of the latter's seminal book, *Missing Time*. Their shared passion for painting, UFO studies, and the abduction phenomenon helped forge a 35-year-long friendship and work relationship during which Robbins would serve as Hopkins' personal assistant and confidante and work with the distinguished ufologist on hundreds of UFO related abduction incidents. In this incredibly personal presentation, Peter Robbins talks about those years with Budd with particular attention paid to Hopkins the ufologist, artist, writer, humorist, foundation director, media presence, humanist, and ultimately one of the world's best known UFO investigators.

10:30 – Noon **David Sereda - *Breakthrough Faster than Light Communication with ET*** - David Sereda has worked deeply in high technology, on environmental and humanitarian issues, and as a professional photographer for 20 years. He has studied virtually hundreds of issues in the fields of world religion, science, physics, and paranormal psychology. Sereda conducted a deep investigation into the scientific community at NASA as well as outside of the agency, as it related to the 1990s space shuttle mission video footage of Unidentified Flying Object Phenomena. The results of that investigation led to the development of the book and documentary film entitled, *Evidence: The Case for NASA UFOs*.

Noon – 1:00 PM **Lunch Break**

- 1:00 – 2:15 PM** **Dr. Roberto Pinotti - Italy, Ufology's Birthplace: From Rome and the Renaissance to Fascist, Italian Air Force, San Marino and Vatican Approaches, and Conclusions** - International lecturer and author, Dr. Roberto Pinotti is the primary Italian scholar on ufology. His activity as a founder and past president of Italy's Centro Ufologico Nazionale, as well as his involvement with the Italian Air Force, France's GEIPAN, England's House of Lords UFO Study Group, SETI, the Fascist UFO Files, the Republic of San Marino World UFO Symposia, and the Vatican "ET policy," confirm his role as a world-class expert.
- 2:30 – 3:45 PM** **Bruce Maccabee - The Legacy of the Year of the UFO** - The large number of sightings during the summer of 1952 forced the U.S. Air Force to publicly react in order to damp down what seemed to be a sort of "saucer fever" that swept the land. At a press conference the head of air force intelligence admitted that there were credible reports of "relatively incredible things," but that, as far as he was concerned, there was no threat to the U.S., there was no evidence of unknown technology, and recent sightings in Washington, DC, were a "weather phenomenon." From that point on the news media and the scientific community almost uniformly treated UFO sightings as being "silly season" phenomena. This treatment has hampered scientific UFO research but it seems that we are finally breaking through this tradition. Optical physicist Dr. Bruce Maccabee is one of the world's leading scientific ufologists.
- 4:00 – 5:15 PM** **Travis Walton - Fire in the Sky Revisited** - For the first time ever, **John Goulette**, one of the witnesses to Travis Walton's incredible abduction experience, will be speaking alongside Walton. Travis Walton claims that in 1975, while working as a logger in Arizona, he and several co-workers came across a UFO in the forest which shot a beam of light at Walton. Frightened, his friends fled the scene, and when they returned, Walton was gone. Walton recalled waking up on the side of the road; he thought only a few hours had passed, but he had actually been missing for 5 days. He later recalled being on the craft and the strange creatures that were there with him.
- 5:30 – 7:00 PM** **PANEL: Uncovering the Truth Behind 2012.** Featuring David Sereda, Jaime Maussan, Colin Andrews, and more!
- 7:15 – 10:00 PM** **Film Festival Screenings**
- 7:30 PM – ???** **UFO Poker Tournament hosted by the Fort McDowell Casino** (open to all conference attendees)

**Friday, February 24 • Registration Desk Open: 8:00 AM – 6:00 PM, Exhibits Open: 8:00 AM – 8:00 PM**

- 8:00 – 9:00 AM** **Experiencer Session:** Yvonne Smith will host a small gathering for experiencers to interact. (No press/media allowed)
- 9:00 – 10:15 AM** **Rosemary Ellen Guiley - ETs, Shadow People, and Djinn** - Rosemary Ellen Guiley examines the connection between ET contact and abduction experiences, the paranormal phenomenon called Shadow People, and the possibility that the Djinn, supernatural creatures that occupy a parallel world to mankind, may be involved in both types of experiences. Rosemary is one of the leading experts on the paranormal and has worked fulltime in the field since 1983, undertaking original field investigations and research for the more than 47 books she has written on a wide range of subjects. She focuses on entity contact experiences of all kinds.
- 10:30 – Noon** **Bryce Zabel - Life After Contact** - Bryce will present a multimedia journey into the post-disclosure world. Drawing inspiration from his book, *A.D. After Disclosure* (co-authored with Richard Dolan) and his Hollywood experiences telling stories of alien contact (e.g., *Dark Skies*, *Taken*, *Official Denial*), Bryce weaves a compelling story about what happens after the powers-that-be acknowledge the existence of UFOs. Bryce argues that preparation for disclosure is vital now, given that it is likely to occur in our own lifetimes. He makes specific predictions about stock market closings, martial law, truth commissions, energy breakthroughs and even the birth of new religions.
- Noon – 1:00 PM** **Lunch Break**
- 1:00 – 2:15 PM** **Randall Nickerson - Researching the Ariel School Incident** - At the Ariel School in Ruwa, Zimbabwe, sixty-two children reported seeing a UFO and "strange beings" during morning recess. Through the work of the late Dr. John Mack, this bizarre sighting was thoroughly researched and all of the witnesses were interviewed. These interviews make the Ariel School Incident one of the most well-documented UFO sighting and encounter cases in recent history. Filmmaker Randall Nickerson went back to southern Africa, tracing the original witnesses and discovering new ones. He will present the results of his investigation and provide a visual tour through this incredible mass sighting in Ruwa, Zimbabwe.
- 2:30 – 3:45 PM** **TBA**
- 4:00 – 5:15 PM** **Jaime Maussan** - A well-established and widely known TV personality in Mexico, Jaime Maussan has become world famous for the incredible quantity and spectacular quality of the UFO videos that he continuously presents to the global UFO community. The modern Mexican UFO wave, along with Jaime's involvement in this field, began in July 1991 during a total solar eclipse, when thousands of Mexican citizens reported and filmed UFOs. This was the event that made the UFO phenomenon a reality to Jaime. Through his *Tercer Milenio* TV program, Jaime continues to report on UFOs on a regular basis and is one of the hardest-working investigators and reporters in the field.
- 5:30 – 7:00 PM** **PANEL: Who Are the Aliens?** Featuring Whitley Strieber, Anne Strieber, Yvonne Smith, and Peter Robbins.
- 7:15 – 10:00 PM** **Film Festival Screenings**
- 7:30 – 10:30 PM** **Friday Night Franks** (presented by Fort McDowell Adventures - separate event, not hosted by IUFOC). Featuring Native American storytelling, live music and an old fashioned wiener roast. Optional cost for food and beverages.

Saturday, February 25 • Registration Desk Open: 8:00 AM – 5:00 PM, Exhibits Open: 8:00 AM – 7:00 PM

- 8:00 – 9:00 AM** **Experiencer Session:** Yvonne Smith will host a small gathering for experiencers to interact. (No press/media allowed)
- 9:00 – 10:15 AM** **Ben Hansen - *Fact or Faked: Interplay of Media, Technology, Hollywood, and Validating Evidence of ET contact*** - When it comes to documenting UFO and ET events, technology can be our best friend as well as our worst enemy. Along with the tremendous advances in consumer media, there has been an increased interest by some in devising hoaxes, often utilizing simple home-based computer graphics and movie-making software. Viral video hoaxes and other faked events have increased at a staggering rate, and their impact on legitimate research cannot be ignored. What role does Hollywood and the media play in disclosure? Are we being prepared or deceived? Will disclosure be brought about and shared ultimately by capturing events on video? Ben Hansen, from the SyFy Channel's *Fact or Faked: Paranormal Files*, will discuss these topics and the trends that use of technology has created as well as technology's influence on the belief and ultimate discovery of the truth.
- 10:30 – Noon** **Whitley Strieber - *Solving the Communion Enigma*** - Famous author Whitley Strieber will be presenting material from his new book, *Solving the Communion Enigma*, which takes a radical new look both at his own close encounter experiences as well as the nature of the alien experience and human life itself. Whitley's wife, Anne, who has read and catalogued thousands of witness accounts, will join Whitley to read a selection of these amazing documents, which go far beyond anything in the current UFO literature and illustrate the true mystery of contact.
- Noon – 1:00 PM** **Lunch Break**
- 1:00 – 2:15 PM** **Ricardo Bermúdez - *Chile's Official UFO Agency*** - Chilean Air Force General (Ret.) Ricardo Bermúdez is the Director of the Committee of Studies of Anomalous Aerial Phenomenon (CEFAA), the Chilean government's official organization for the study of unknown aerial phenomena. General Bermúdez has also been the Director of the Technical School of Aeronautics, the School of Engineers, and the sub-Director of Chile's Air Force Academy. At CEFAA, he leads a group of scientists at the doctorate level, who form the committee along with aviation experts from the General Directorate of Civil Aeronautics. General Bermúdez is a former fighter pilot, served as an air attaché in London, and commanded the Third Air Brigade in southern Chile.
- 2:30 – 3:45 PM** **Dr. Steven Greer - *Contact: Countdown to Transformation*** - Dr. Greer leads multiple expeditions each year to train groups in how to make peaceful contact with extraterrestrial civilizations. Within the context of peaceful outreach to extraterrestrial visitors, communication always occurs. The means and methods are unusual, but undeniable. With extraordinary video and audio clips from these expeditions, Dr. Greer will share with the audience how this relationship has been developing over time and what the are implications for further contact.
- 4:00 – 5:30 PM** **Colin Andrews - *Crop Circles: Mirror Image of World Events and Human Behavior, With One Difference!*** - Colin Andrews was the man who coined the term "crop circle" in the mid-1980s and spent three decades researching the phenomenon. During 2000, while being funded by Laurance Rockefeller to undertake an in-depth look at crop circles, Andrews announced that the two-year special investigation had shown approximately 80% of crop circles in the United Kingdom during that period were manmade, while 20% were left unresolved. Since that conclusion, Andrews has focused on what he believes to be the important piece of the crop circle mystery, human consciousness.
